country code

1 Please be mindful and respect the needs of local people and visitors alike – for example, **don't block gateways, driveways or other paths with your vehicle.**

2 When riding a bike or driving a vehicle, **please slow down or even stop for horses, walkers and farm animals** and give them plenty of room. By law, cyclists must give way to walkers and horse-riders on bridleways, so please keep this in mind when you're out cycling!

3 Please cooperate with people at work in the countryside. For example, keep out of the way when farm animals are being gathered or moved and follow directions from the farmer.

4 A farmer will normally close gates to keep farm animals in but may sometimes leave them open so the animals can reach food and water. The most important thing to remember is to leave gates as you find them or follow instructions on signs. When in a group, make sure the last person knows how to leave the gates.

5 **Please follow paths** unless wider access is available, such as on open country or registered common land (known as 'open access land'). It might sound obvious, but please ensure that you leave machinery and farm animals alone – don't interfere with animals even if you think they're in distress. Try to alert the farmer instead.

6 When strolling through our beautiful countryside, use stiles or gaps in field – climbing over walls, hedges and fences can damage them and increase the risk of farm animals escaping.

7 We all have a responsibility to protect the countryside, so make sure you don't harm animals, birds, plants or trees and try to leave no trace of your visit.

9 Litter and leftover food doesn't just spoil the beauty of the countryside, it can be dangerous to wildlife and farm animals – so please always take your litter home with you.

10 Fires can be as devastating to wildlife and habitats – be careful with naked flames and cigarettes at any time of the year.

11 We know that you **love** your dog – but local wildlife might not! When you take your dog into the outdoors, always ensure it does not disturb wildlife, farm animals, horses or other people. Please keep your furry friend under effective control: **keep your dog on a lead, or keep it in sight at all times**, be aware of what it's doing and be confident it will return to you promptly on command. Please ensure it does not stray off the path or into an area where you do not have a right of access.

Please follow the country code, and help us keep our nation's countryside running smoothly.

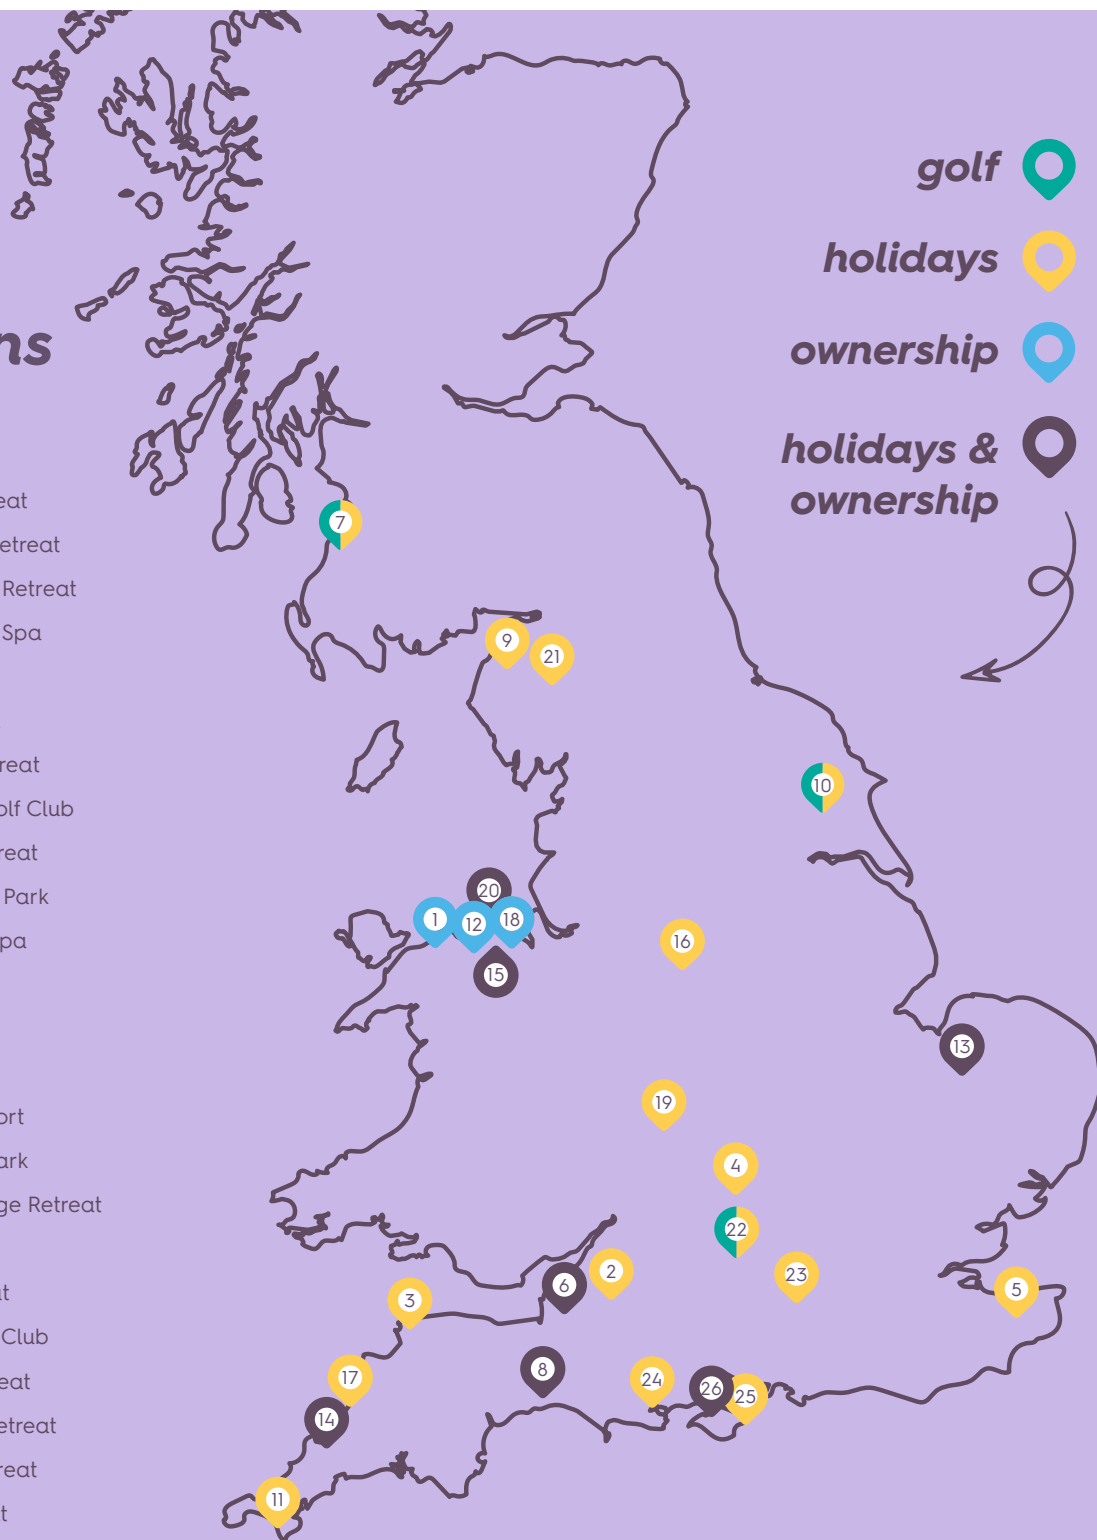

Ticks love to live in the countryside too, please check your four legged friends and yourself after your ramble for any unwanted hitch-hikers.

hot tub safety

instructions & disclaimer

The following information is provided for your safety and well-being. Wherever there is water, there is a danger of drowning. Please act sensibly and be aware of the risks.

Hot tub safety

Do not use the hot tub if you are pregnant or have a medical condition (high blood pressure, heart condition, diabetes etc) or serious illness which may affect your reaction to heat. Check with your doctor first.

Keep your usage to short durations with cool down breaks in between. It is very easy to overheat and become dehydrated without noticing - 15mins at a time is the recommendation.

Children under the age of 8 cannot use the hot tub. Young children struggle to regulate their core temperature and become dehydrated more quickly.

Children aged 8-16 must be supervised and accompanied by an adult.

Do not use after 9am on the morning of check out. From this point onwards our staff chemically treat and drain ready for the next guests.

Hard surfaces will be slippery when wet especially when barefoot. Take care and use towels provided.

Do not use the hot tub if you feel unwell or are sensitive to chlorine or bromine.

Keep your head above water - chlorine or bromine can irritate eyes and sensitive skin.

Do not use after a large meal within the previous hour or after the consumption of alcohol.

Do not use glass containers in or around the hot tub area.

Do not use electrical equipment in or around the hot tub area.

Smoking/vaping is strictly prohibited in or around the hot tub area.

Do not consume food or drink in or around the hot tub area.

No jumping or diving into the hot tub.

We do not recommend using the hot tub if you are on your own.

Water quality

For your safety, we will carry out short tests on your hot tub each day of your stay - to complete these, the team will need to briefly gain access to your hot tub.

Please shower prior to use and do not add oils, bubble bath or any other products. Residual or added products affect water conditions and impact the effectiveness of the disinfectant agent.

Chlorine or bromine is released into the hot tub from an inbuilt dispenser. Please do not interfere with or open these. The disinfectant flow rate has been pre-set by our staff and is monitored and adjusted in-line with the daily testing.

Thank you for your cooperation with these testing and treatment measures, in place for your safety and comfort.

Using the hot tub

Please act sensibly and be courteous to other guests around you. Do not use the hot tub after 11pm.

Remove any jewellery as the chemicals can damage metals and precious stones.

Do not attempt to change any settings or the temperature (with the exception of use/selection of jets) - if you need assistance please ask a member of the team.

Do not exceed the hot tub capacity i.e. the number of seats.

Opening & closing the hot tub lid

1 Lids can be heavy so ensure two people lift up the lid, one at each side, using the handles provided. This will be easier to lift and puts less strain on the lid hinges.

2 Fold the front half of the lid back and then carefully lift lid from the side, to close, please do the reverse.

3 Some hot tubs require the lids to be secured, please use any balustrade straps or chains provided to secure the lifting arm. Remember to release these prior to closing.

Raised lids (even when secured) are vulnerable to damage in strong winds which may lead to injury. Guests are advised to use with caution and close and clip down where conditions dictate.

Please do not leave the hot tub unattended at any time while the cover is off - water is a safety risk to children and any blown debris (leaves etc) can block filters. Replace the cover as soon as you get out and fasten the clips.

Do not sit or stand on the hot tub lid.
